WeatherAlarm

Brian Woestman   **Productivity**

Everyone

This app is compatible with all of your devices.

Add to wishlist   Install

WeatherAlarm allows the user to specify a time they would like an alarm to be set, an amount of precipitation as a threshold for rain and a minute offset to change the alarm. The app will then wake the user's phone to check for precipitation and adjust the alarm to an earlier time if the precipitation exceeds the user's rain threshold.

This app was designed for commuters that need to decide on different wake times based on
